Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Allowance is based primarily on the inclusion in claim 1 of the limitation to "m is 0, n is 1" in the general formula (I) representing the structural unit (I). This distinguishes the claimed subject matter over the closest prior art, *viz.*, EP '672 (cited in the Search Report dated 9 May 2006) and the US counterpart, Asrar '037. This art discloses hydrogenated polymers containing ethylene cyclopentanedicarboximide units, but nowhere teaches or fairly suggests the polynorbornene structural unit of the present invention, wherein a norbornane ring is fused to each of cyclopentane and a dicarboximide ring; or the corresponding monomer structural unit as recited in claim 10.

An updated search of the relevant art has revealed no prior art that can be used, either singularly or in combination, to render the presently claimed subject matter anticipated or obvious to a person having ordinary skill in the art at the time the invention was made.

Accordingly, claims 1-3, 6-11 and 14-16 are deemed to define allowable subject matter and passed to issue.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
